SUSTAIN'S VALUES

Our mission: to change people's lives through passion-filled expeditions into untamed wilderness. We seek to create deep and lasting human connections with nature and the people who conserve it.

Our goals: to play a meaningful role in expanding or enhancing protected areas and biodiversity; to operate sustainably and responsibly; to help establish viable biodiversity economies and tourism destinations; to promote environmental and cultural education; and to positively transform ecosystems and the communities around them.

Sustain Conservation Fund: Sustain was created as a conservation-driven ecotourism company, with a business model focused on creating exceptional and great value safari experiences that give back. Hence, we support 3 chosen conservation NGOs doing amazing work.
